TERM CONVERSION SUCCESS STORY

CASE PROFILE

- 65 yr. old; Certified Financial Planner (CFP)
- Owner of \$2.8 million term policy about to expire
- \$60K annual premium after converting to UL policy
- \$15K Lowest offer from a buyer
- \$30K Highest offer from a buyer (Accepted by CFP)
- \$60K Commission received by CFP for UL conversion

TRANSACTION HIGHLIGHTS

The insured's term policy was near the end of its 20-year term and the cost to convert it to a UL policy was too expensive. As a certified financial planner and licensed life agent, he decided that selling the policy would benefit him — both professionally and personally. Although his young age was a challenge in terms of brokering offers from market buyers, we were successful in negotiating a cash windfall that the agent used to pay for his daughter's wedding. He was also thrilled to receive a \$60,000 commission on the UL conversion.

Term-Conversion Life Settlement Results in \$90,000 Cash Windfall for CFP

Asset Life Settlements was approached by a life licensed CFP regarding his **\$2.8M** term policy that was nearing its expiration.

The agent determined that the **\$5,000** monthly premium for the conversion to a UL policy was not an affordable option, so he approached us about a term-conversion life settlement.

Although we cautioned him that his young age of 65 and his long life expectancy would be a difficult challenge in terms of generating buyer interest, we agreed to test the waters in the life settlement marketplace.

The agent/CFP felt that it was worth the longshot for several reasons.

Key Take-Aways

- Agents whose clients own term policies that are about to expire should explore the client's eligibility for a term-conversion life settlement.
- It's important to shop the case to multiple buyers in the marketplace and never accept one offer or be deterred by one buyer's rejection.
- Asset Life Settlements has the secondary market expertise to negotiate the highest possible settlement for your client's policy.
